

**Prizes In Balloons
Will Float To The
Dances at I. F. C.**

**Caricaturist, Singer
Continuous Music
Arranged For Affair**

Featured attractions of the Interfraternity Conference dance, scheduled for the evening of March 27 at the Imperial Ball Room of the Hotel Statler, will include a balloon bombardment of literally hundreds of balloons, by means of which \$50 will be given to the dancers, a group of wandering minstrels to sing at odd times and places, and a caricaturist, Pol Van Geel, who has already gained considerable reputation among many of the fraternity members. All this will be in addition to the "Battle of Music", starring Sam Donahue and Harry Marshard and their bands.

Continuous Music Planned

The bands will play steadily, alternating at 30 minute intervals instead of playing ten minutes and resting five as is the practice when only one band plays. By means of this system, crowding on the dance floor will be abolished and dancers will be free to dance at will, it was pointed out by Warren E. Foster, '43, chairman of the dance committee. The ticket holders are assured the best music of which the bands are capable as the bands will be vieing for top honors.

The dance will be open to all, and not restricted, as hitherto, to fraternity members.

**Forum To Discuss
Post War Problems**

"Collective Security" and its many ramifications will be the subject of the second of a series of Post-War Reconstruction Forums to be held Wednesday, March 18, in Litchfield Lounge at 5:00 P.M. under the aegis of Professor Theodore Smith, of the department of English and History, assisted by Mr. Duncan S. Ballantine, of the same department. The whole series is under the joint sponsorship of the T.C.A. and the Debating Society.

The open discussions, after some preliminary remarks have been made, are the bases for all analysis of the problems to be faced. With representatives from the various countries involved acting as national agents and other students representing vested interests, the true international attitude is attained.

The whole discussion is based upon the basic assumption that the war will be won, and the forces of the allies conquer, although the war may at this time seem far from being won. All students are invited to attend these open forums held every Wednesday at 5:00 P.M.

**Sedgewick Society Elects
Officers; Plans Exhibits**

At a well-attended meeting of the Sedgewick Biological Society last night in room 10-270, Ward J. Haas, '43, was elected its new leader. Assisting Haas during the next year will be Paul Talalay, '44, vice-president; Harriett C. Aldrich, secretary-treasurer, Henry C. Strecker, Junior representative, and Leo Cravitz, graduate, general representative. The meeting, making the reorganization possible, was conducted by Francis Ross, '42.

Plans were discussed for the representation of some of the members of the society at the Biological Conference of Eastern New England Colleges to be held on April 18th at Brown University.

**Life Of A Coed
To Be Featured
In Newest "Vu"**

"It's a super issue!" exclaimed Stewart Rowe, '43, Editor-in-Chief of Vu magazine, Technology's picture publication. The March issue will feature an expose of the heretofore private life of the Technology coed. The identity of the mysterious beauty who personifies Technology's fifty-eight women students is the closely guarded secret of the editors and will remain in their possession until March 24, when the third issue will be placed on sale throughout the Institute.

New Features In This Issue

A tableau on the Colby Junior College Winter Carnival and the Salon Section represent innovations in this issue. The only stroboscopic picture of Warmerdam's record pole vault at the Boston Athletic Association Meet will be found in the sports section.

The cover depicts Lawrence E. Stewart, '43, rounding the bend in the mile relay at the B.A.A. meet.

Complete coverage of the activities of Senior Week will be offered for the first time in the May issue of Vu, Pictorial, it was announced last night. Seniors will be able to subscribe to the issue at the time of the redemption of their Senior Week options.

Also announced was the election of Harry W. Turner, Jr., to the associate board of Vu as associate business manager.

Copies of the May issue will be sent to anyone leaving his name and address and thirty cents at the Senior Week redemption desk on Wed. and Thurs. This is the first time that any adequate coverage of Senior Week has been made: Vu is taking advantage of the unique situation this year to devote six or possibly eight pages of the May issue to this subject.

**High Frequency Students
To Hear Signal Corps Man**

Lieutenant Auten J. Mary, representing the Chief Signal Officer of the War Department, will address students now taking the ultra-high frequency course at the Institute on Thursday morning, March 19. Lieut. Mary will meet these Seniors and graduate students at 9:00 A.M. in Room 10-275.

Lieutenant Mary will talk to the students on the opportunities open to them in the Signal Corps. The meeting is only open to those Seniors and graduate students who are registered in the ultra-high frequency course at present.

**Crocker Elected
New A.P.O. Head**

Control of Technology chapter of Alpha Phi Omega, National Service Fraternity, was delivered to the hands of a new group as a result of elections held last Wednesday. Heading the group as president will be E. Charlton Crocker, '43. Following him come Henry N. Bowes, '44, vice-president; Morris H. Rosenthal, '43, secretary; Robert B. Meny, '44, treasurer; Henry G. Gastrich, '44, historian; and Albert J. Martin, '44, alumni secretary. Gastrich has been associated with Boys Work at the Boston Y.M.C.A., in which the T.C.A. and A.P.O. have been co-operating.

The formal induction of the new officers will take place at a banquet to be held at 6:00 P.M., Wednesday, March 25. Those attending the banquet, which is in the charge of George R. Spies, Jr., will likewise witness the initiation of new men.

**R.O.T.C. Seniors
Granted Recess**

**Maximum Deferment
Begins April 27;
Other Changes Made**

All R.O.T.C. Seniors will be granted a ten-day deferment beginning April 27, according to an order issued by Colonel Edward W. Putney of the department of Military Science, it was revealed today. Ten days is the maximum deferment permitted by the War Department to Reserve Officers after graduation and the announcement of its enforcement came with word of promotions and changed requirements of the department.

With the expansion of the Ordnance Unit of the Reserve Officers Training Corps at the Institute, the department has decided to admit men from Courses VI and IX, it was announced last night by Major Arthur D. Caswell of the Ordnance Unit. In special cases men from other courses not already designated will be accepted if they show evidence of having had industrial training which would make them desirable.

"Army Ordnance has expanded enormously since the beginning of the war with a consequent demand for more officers," said Major Caswell. As previously announced, Juniors will be taken at once into the course even though they have not had the ordinance course given the second half of the Sophomore (Continued on Page 4)

**One Hundred Unpaid
T. C. A. Pledges Out**

There is still a sum of \$182 outstanding in T.C.A. pledges, according to a statement made by Walter M. Ross, executive secretary of the Technology Christian Association. Approximately 100 pledges remain unpaid.

Because the fiscal year of the Association ended Sunday, March 15, any unpaid pledges have become last year's business and thereby complicating the bookkeeping and providing an obstacle in the path of any new business which the T.C.A. may desire to undertake.

For this reason Mr. Ross has asked that these pledges be paid immediately either in the Cashier's office or in the T.C.A. office in Walker Memorial.

**"It's Time We Learned," Timely
Play, Is Now In Production**

"It's time we learned," our most potential source of democratic solidarity lies in a great land lying to our south, though we know too little of our fellow Americans in the Southern Hemisphere.

So "It's Time We Learned" is George Bemberg's thespian contribution to a substantial basis for understanding Latin Americans... to understand their activities, their way of thinking, their very spirit. It comes from a man who knows, and the play is as timely as today's war news. It is a dramatic triumph in the sense that it successfully debunks the motion-picture illusion of South America as a land of palm trees, rumbas, and Carmen Miranda.

More specifically, "It's Time We Learned" hits home because it is about two American college boys who visit a family in South America, and the comparison of customs and habits of thought shows that the Latin Americans are a sensitive, romantic people.

These two American college boys represent the leaders of the next generation. When they become the leaders, they may learn that the recent indications of closer Pan-

**Redemptions For
Senior Week Due
Before Thursday**

Seniors are urgently reminded by S. Young Tyree, Jr., not to forget the redemption of sales of Senior Week options to be held tomorrow and Thursday, March 18th and 19th from 10:00 A.M. to 4:00 P.M. in the Main Lobby of Building 10. The price is \$10.00 to be paid only in R.O.T.C. pledges or cash.

Blanket tickets may be purchased for \$14.35, or individual tickets to the separate features of the program may be obtained for a cumulative cost of \$16.20, tax included.

The Stag Banquet will be held on the night of Thursday, April 23rd. The following evening, Friday, the Barn Dance will be held. On Saturday afternoon, the 25th, the Class Day Exercises will be held followed by the Tea Dance. The Baccalaureate Service will be given Sunday afternoon, followed by the graduation exercises Monday morning, April 27th. The President's reception will be held in the afternoon. Senior Week will be climaxed in the evening by the formal dinner and Senior Ball to be held at the Hotel Statler Ball Room.

The location of the other Senior Week activities will be announced when the arrangements are completed.

**T. C. A. Plans
Embassy Meeting**

The Sixth Annual Tech Embassy will be the subject of a T.C.A. meeting of representatives from the twenty-four fraternities and the Student House to be held at 5:00 P.M. tomorrow in the T.C.A. office, it was announced last night by Garry C. Myers, Jr., '44.

The fraternities at Technology will play host to the various ambassadors to the Embassy, which will be held on April 18. It is hoped to arrange a program at tomorrow's meeting whereby each of the fraternities will entertain one of the guests for the T.C.A. During and after the dinners at the various houses many interesting "bull-sessions" on subjects pertinent to religion are expected to arise between the students and their guest ambassadors.

A similar program of "bull-sessions" dinners is to be planned for dormitory and other groups.

**Prof. Magoun's
Spring Lectures
To Begin Today**

**Marriage Difficulties
Will Be Analyzed In
Four Weekly Lectures**

The first of the spring series of lectures on the topic "In Preparation For Marriage", sponsored by the Technology Christian Association, is to be given this afternoon at 4:00 P.M. and again at 5:00 P.M. by Professor F. Alexander Magoun of the department of Humanics in Room 10-250.

The fall series dealt with the problems which confront a young couple before marriage; in the periods of selection, courtship and engagement. This new series is to deal with those difficulties which may be met after the wedding ceremony is performed; those involving the honeymoon, emotional adjustments, prenatal care, and making a home.

Walter P. Swain, Jr., '44, is the T.C.A. meetings chairman and is in charge of these talks, and the new president of the T.C.A., Clinton C. Kemp, '43, will introduce Professor Magoun at the lecture.

The first subject to be discussed in this new series, the Honeymoon, is one of the most important factors towards building a successful marriage. In the lecturer's own words, "It is quite possible to ruin a marriage in the process of learning how to be married." During the honeymoon the couple should set about understanding each other as if their very lives depended on it, (Continued on Page 4)

**McMenamy Twins
Play At Carnival**

**Imagination To Run
Rampant In Contest
For Novel Inventions**

The McMenamy Twins and their orchestra are to provide the dancing music for the annual 5:15 Club Carnival which will have free reign on Saturday night, March 28, in Walker Memorial, announced Waldo Davis, '43, 5:15 Club president. Tickets for the fair are priced at \$99 per couple, which includes a nine cent tax.

The McMenamy Twins, back from a battle of music with Jimmy Lunceford and other engagements at Boston Hotels, have promised to provide both swing and sweet syn-copation. The Rube Goldberg contest for the contest of screwy research as usual will highlight the carnival. The contest is open to all the undergraduate groups, whether fraternity, dormitory, or commuter. The prizes include a keg of beer for the best exhibit, a case of beer for second place and a case of soft drinks for third.

**A. S. M. E. Society Dinner
Will Be Held Tomorrow**

Professor Steven G. Simpson, of the department of Chemistry, and Lieutenant-Colonel Manning are featured as guests entertainer and guest speaker respectively for the A.S.M.E. dinner to be held at 6:15 P.M. Wednesday night in the Smith House. The dinner is open to all members of the A.S.M.E. and Course II. Tickets may be obtained from Professor Alvin Sloan, of the department of Mechanical Engineering.

Professor Simpson, president of the Association of Amateur Magicians will perform feats of prestidigitation after which Lieut. Col. Manning will deliver his address. Tickets may also be obtained from Kenneth Wadleigh, '43, and Bernard Reckseit, '43.

A PRIVILEGE AND A RESPONSIBILITY

Today Secretary of War Stimson will pull from a fishbowl the slips of paper which will determine the order in which the latest registrants in the Selective Service draft will be called to duty. Particularly fortunate among these soldiers-to-be are the students of engineering who, because of their potential value to industry and the war effort, will not be asked to interrupt seriously the routine of their peacetime lives to join the armed services. Instead, they are to be deferred until the time that they have absorbed enough technical knowledge to serve effectively the nation's best interests.

To the individual student, a deferment from active military services means a great deal. It means that he can finish his education without interruption, that he can continue living as before with minimum discomfort and regimentation, and that he will not be subjected to the dangers of the battlefield at least for some time to come.

But more than that, it means that he will be able to serve his country in a capacity which is particularly necessary for victory over a modern, mechanized army like the enemy's. A deferment, then, is not something which a student gets; it is rather something which he is given by a people which expects him to do his bit in return. Obviously, the student's first method of repayment is to apply himself to his studies so wholeheartedly and so efficiently that he will be especially well-fitted for his war-time post.

Beyond that, the engineering student is further indebted to the government which has provided him with a draft deferment. He must turn his attention to the peace which will follow and to his responsibilities in relation to that peace. It will probably be the lot of the scientists and engineers after the conflict has ended to guide alone their efforts towards a peaceable goal. Never again must they submit to the whims of a master, to a longing for money, or to any influence whatsoever which could cause then to contribute to the destruction of the peace that will be established after the war. They must necessarily turn their endeavors to peacetime activities so that that peace can be enduring.

When the engineering student of today accepts his draft deferment, he assumes for the engineer of tomorrow the responsibility of preserving a peace that can last only with the full cooperation of science and technology.

ANOTHER TOWN MEETING

With the approach of the annual class elections, once again the problem of the student body being divided into residential groups and cliques with each seeking to corner the elective positions comes to the fore. The unofficial electioneering season will begin with the distribution of nomination blanks and will end only on election day.

In each residential group, caucuses have been or will be sponsored by a few of the leaders, who select one of their number as the residential nominee for whom the rest of the group is instructed to vote, and generally do. Not enough emphasis has been placed upon the policies and qualifications of the candidate, in comparison to his minor services to the group to which he belongs.

The situation was partially relieved last year by the Debating Society when it sponsored an elections forum in Huntington Hall in which all presidential candidates from the three undergraduate classes presented their platforms to the students attending the meeting. We suggest that the Debating Society sponsor another elections forum so that the voters will know for whom they are voting and what policies the elected officers will institute.

Dramatis Personae

The plays presented every Saturday by the E 22 drama option classes are always good for a laugh, even if they were meant to be tragedies. Take last Saturday's production, for instance. It seems that one professor in the English department has been promising himself for years that some day he would present that classical Greek tragedy, "Electra." The main drawback has always been lack of women students—a lack which is strongly felt by undergrads as well as professors. This year he swore that he would produce "Electra," even if he had to rope, tie, and throw a female impersonator to play the title role.

Sure enough, those who saw last Saturday's play were treated to as lady-like an interpretation of the Greek maiden as was ever witnessed. A light, graceful wisp of a figure glided upstage, carrying an imaginary jug of water on "her" lovely head, paused, and gently set down "her" burden. Then, raising her shapely arms to the heavens, she spoke her opening lines in a voice that was as fresh and rippling as a mountain stream.

That was too much: women can wear slacks and be as masculine as they please, but when a man turns the tables on them—oh, well, it's all for Art's sake.

For Boys To Play

By Gene Schnell

... with hopes that old man Winter went on his final binge last weekend and has departed north for the while (Remember Pearl Harbor and New England weather), we're looking forward to the Spring season of Tech entertainment which was ushered in by the D.U. Spring formal last weekend. And may we say that the party did rather a good job in tiding Tech funsters over an otherwise dull weekend. Dropping in for a look—see, your columnist found the party in full swing, with just enough informality to brush aside that stiffness which radiates from starched shirts.

... passing the Hotel Bradford

the other night, we thought we'd drop in at the Circus Bar and see the monkeys. Decorated in a flashy circus stripe which gives the room an appearance reminiscent of a barber pole, the lounge's main feature consists of several barred-off tables for those interested in seeing life from the monkey's side of the cage. Feeding, as is customary, is not allowed.

... just a reminder to you theatre-goers and those of you who are attending the weekly E22 dramas, "Watch On the Rhine" has come to Boston after a very successful run in New York and will appear at the Colonial Theatre for a two week engagement.

The Reader Speaks

Editor, The Tech

Dear Sir,

In these times when editorial material of a universal nature is growing up on all sides, I feel that the Editor of The Tech should extend his outlook to include problems of a world-wide nature. It would not be necessary to pose as an expert on international affairs to do this. For instance, the attitude of the student body on the war is something that you are in a position to discuss, and the responsibilities of college men to a

nation at war should offer food for thought.

There are crackpots in every walk of life who are spouting fallacies, the sum total of which is very confusing to the average student. One moment he is urged to enter the armed forces; the next, he is told to stay put. Someone states that he should prepare for post-war reconstruction; another warns him that we are fighting for our very existence, and that the present is all-important, the post-war period of secondary importance. You would do well to separate the wheat from the chaff of these theories, and the consequent benefit to the student body would be enormous.

JACK H. FRAILEY, '45.

FRATERNITY SCHOLASTIC RATINGS ANNOUNCED

Fifteen Fraternities Enter All-Tech Swim, More Entries Expected

Eliminations Held Thursday And Friday, Finals On Sunday

Fifteen fraternities to date have announced their intentions to enter the All-Tech Swim held the end of this week, March 19-22, while dormitories and other organizations have been strangely silent. With better and greater plans being formulated, the sponsors expect a sizeable audience as well as more competitors to come out in force for the finals at 2:30 Sunday in the Alumni Pool.

The Tech Swim Club, sponsors of the All-Tech Swim, produced a keg of beer which will fall to the winners of the meet this coming Sunday. All entrants and spectators will also be privileged to join in the mixed swimming which will follow the competition.

Added Attractions

Besides the beer and the mixed swimming, the All-Tech swim will contain two water-polo bouts, exhibition diving by Jack Hunn, Bob Reebie, and Larry Lamadrid, besides five straight swimming events. These will include 50-yard dashes in each of the back stroke, breast stroke, and freestyle classes. Varsity and professional swimmers are taboo on Sunday, giving every person an equal opportunity.

Trials Thursday, Friday

Coach John Jarosh will hold the first trials Thursday afternoon when the 50-yard men show their stuff. Friday afternoon the relay teams will fight it out with a 300-yard medley relay and a freestyle relay. The winners of the trials will be eligible for the clash in the main meet.

The grandstands will be open and those who are unable to compete for the grand prize are requested to bring a member of the fair sex. The soprano screams of excitement will dispel all the gloom of the losing teams and will provide more interest in the mixed swimming afterwards.

The waterpolo, which to swimmers is considered a mild form of drowning, is another highlight of the occasion. Arrangements have been completed after faculty acquiescence for at least one if not two bouts between upperclass teams and freshmen teams.

The divers are practicing their most tricky dives and will put on a hair-raising exhibition. These members of the varsity have taken almost every meet they have entered and will put the finishing touches to the program.

Tennis Rally Thursday Starts Spring Season

Summoning all tennis enthusiasts, Jack Summers, tennis coach, has announced a tennis rally to be held Thursday, March 19, at 5 P.M. in room 1-190. Summers, who will supervise practice, will outline the spring schedule and deliver a general discussion about the routine of getting the team underway.

The Walker courts should be ready in a few days, it was announced, and spring practice will begin as soon as possible. Since a good many Seniors will be leaving early, there is more opportunity for undergraduates. The latter are asked to see Summers tomorrow, Wednesday, at the Squash courts if it is found impossible to attend the rally on Thursday.

Rindge Technical Victor In Class A

Newburyport First In Class B; Cage Tourney Scores Great Success

Defeating Chelsea High again in a spectacular hoop avalanche of 36 to 26, Rindge Technical took its second successive Class A Championship at the annual Tech interscholastic basketball tournament before a wildly enthusiastic crowd last Wednesday night at Tufts Cousens Gym in Medford. A new Class B champ was crowned in the afternoon when high-powered Newburyport High dethroned last year's winner, Braintree High, by a score of 45 to 34.

While Rindge Tech won by a photo finish last year, the Red Devils from Chelsea this year were outpowered from the start as all five Rindge technicians fitted into the championship like well-oiled parts. Chelsea's Goldenburg, however, turned out his fastest performance, and kept Chelsea from falling apart altogether.

Masnik, Bowen Place Second

Two Beaver Matmen drew second places in the New England American Amateur Athletic Union meet held last Saturday in the Boston Young Men's Christian Union.

Competition from such teams as Springfield, Rhode Island, Harvard, and Amherst set a tough pace for the Tech wrestlers. Representing Tech was Hugh Byfield and Dick Bowen in the 175 lb. class, Warren Schwartzman in the 135 lb. class.

(Continued on Page 4)

Goodale Leads Hoop Tourney

Senior A, 5:15 Club Sigma Alpha Epsilon, Phi Gams Follow

The results of the round robin of the Beaver Key Basketball tourney up to the present time have been given out by the Beaver Key Society. Last Tuesday Goodale defeated the 5:15 Club, Sigma Alpha Epsilon beat Phi Gamma Delta, Thursday Phi Gamma Delta was defeated by the 5:15 Club, and yesterday Goodale defeated Sigma Alpha Epsilon, and Senior A defeated the Phi Gamma Delta team. The Goodale team is therefore ahead because it is as yet undefeated.

The schedule for the coming week promises to reveal the champion of the tourney. Today the 5:15 Club plays the Sigma Alpha Epsilon contingent, and Goodale meets Senior A. Next Thursday the 5:15 Club will oppose Senior A and the Phi Gamma Delta team will play Goodale. The only scheduled game for Sunday so far is the contest between Senior A and Sigma Alpha Epsilon.

The standing for the round robin is as follows: Goodale won 2, lost none; Senior A won 1 and lost none; Sigma Alpha Epsilon and 5:15 Club have identical records of winning and losing one game; the Phi Gamma Delta team, won none, lost 3.

The tourney should be over by next Sunday evening unless something comes up to postpone any of the games until after Sunday. The winner will be announced at the earliest possible time.

Loveland Places 4th At Amherst

Although few members of the team accompanied Coach Jarosh to the Intercollegiate meet Friday and Saturday, the contestants managed to take two points for the eighth place as Amherst, the host, walked away with the meet. Jack Loveland was the sole Beaver to place when he seized fourth position in the breaststroke. Jack Hunn lost a heartbreaking chance as he fumbled his last dive which might have won him a good score.

The meet was completely Amherst's as it took a lead as great as any of the other scores. The other Tech team to qualify was the 300-yard relay quartet, which has done an excellent job all season.

Large Turnout Raises Lacrosse Team's Hopes

Practising on emergency ground behind the Alumni Pool, the varsity lacrosse team anticipates a very successful season. Coach Bob Maddux stated that the team has had a fine turnout this spring and still has two weeks of unbroken practice before any meets. Although last years star freshman goalie has entered the air force, the remaining members of a good team will strengthen the varsity considerably.

The first meet, a clash with the Boston Lacrosse Club, on April 4, will start off a schedule which will fill every Wednesday and Saturday throughout April. Tufts, Stevens, Dartmouth, Harvard, Springfield, Yale, Williams, and N.H.U. will fill the bill for April, with additional spaces to be contracted for in May.

Skiers Deserve Credit For Holding Meet

If the skiing story appearing in the last issue of The Tech had not been cut off so short, it would have gone on to tell that the ski team under the sponsorship of the Outing Club was the host of the championship meet of the Eastern Division of the I.S.U. at Bridgeton, Me., on February 27-28.

Hans Aschaffenburg, Jim Klein, and Frank McClintock were the mainstays of the Tech barrelstavers. In the downhill race Hans Aschaffenburg skied to the shortest time of his team, but finished 4th. Jim Klein, Volker Rassbach, and Jim Mavor followed in 6th, 12th, and 14th places respectively.

Take 2nd and 3rd

Beaten only by Les Soule of Colby, Hans Aschaffenburg and Jim Klein scored 2nd and 3rd respectively in the slalom race. Volker Rassbach and Jim Mavor scored 13th and 15th places. In the langlauf, about 6 1/2 miles, Frank McClintock placed 4th; Aschaffenburg and Mavor, 7th and 10th. In the jumping event Frank McClintock was second only to Sommernitz of Bates; Jim Mavor and Hans Aschaffenburg scored 9th and 12th.

In spite of the good individual scores M.I.T. did not have enough good men to make a good showing in the totals. The results were Maine 562.9, Bates 538.7, M.I.T. 513.6, Colby 449.7. All in all, much has been accomplished in the few years that the ski team has existed.

Hans Aschaffenburg, Captain of the ski team, has been chosen president of the Eastern Division of the I.S.U. With a better all-round team last year the Beavers won the I.S.U. Eastern Division Championship and finally, the ski team went so far as to run the championship meet this year.

Fred Kaneb To Captain Hockey Team Next Year

Fred Kaneb, Tech's all-New England stellar defenseman, was acclaimed captain of next season's hockey team at the annual hockey banquet held last night in the Silver Room of Walker. Co-captain Dave Christison was voted the Varsity Club award which is given to the member of the team whose ability and team spirit is outstanding.

Varsity letters were presented to the following: Co-captains Dick Small and Dave Christison, Johnnies Arnold, Burdakin, Neal, and White, Dick Bettes, Roger Patterson, Bob Gillen, Ed Edmunds, Bill Verocchi, and captain-elect Fred Kaneb. Freshman numerals were

Gunmen Shoot Norwich Squad 1377-1330

Beavers Have Lost Only To Coast Guard, Have High Average

Last Saturday the M.I.T. rifle team added another victim to its list of ten. The Beaver riflemen defeated Norwich by a substantial margin, 1377 to 1330. Out of twelve matches already held, the Beavers have lost but one, placing second to the Coast Guard team which is undefeated. The average of our match scores, however, is higher than the Coast Guard's by nine points, another substantial difference.

Top men on the Beaver team last Saturday were Richard X. Gannon, '42, 280 out of 300; Pete G. Wiesen-thal, '43, 275; William B. Terry, Jr., '43, 275; Myron A. Shoffner, '43, 274; and John D. Karstrom, Jr., '43, 273. The team now has five men in the top ten in the New England League. They include the first two mentioned above plus Linwood P. Adams, '42, Herman R. Lorence, '42, and James T. Harker, '43.

This week the team will conclude the season with matches against Coast Guard and Northeastern.

Crew Practices Despite Weather

The M.I.T. crews are progressing nicely, and practice is being held regularly and without regard to any obstacles that nature may think up to place in the path. Last Saturday the crews went out on the river amidst the snow and wind, and, despite the very rough weather and the inexperience of the freshmen there were no accidents and practice was conducted with the same efficiency as before. The main purpose of the practice is to toughen up the oarsmen for any kind of weather, the first race being but a scant five weeks away.

year. Training will be completed at special service schools after graduation. Some Seniors who plan to enter Graduate School next year will also be accepted.

Other news from the department was contained in the announcement that Professor Jerome L. Spurr has been promoted from a Captain to a Major. Major Spurr will fill the position left vacant by Major Edward C. Harwood of the Corps of Engineers. Professor Malcolm S. Stevens has been promoted to a Captain. Captain Stevens is also of the Corps of Engineers. Sergeant George C. Hunt has been pro-

12 Are Nominated For Beaver Key

Eight Sophomores Will Be Picked At Elections For Honorary Society

At its meeting Tuesday the Beaver Key Society, honorary Junior organization, nominated several members of the Class of 1944 for the election to be held on March 25. In contrast to former years the Class of 1944 will choose eight men this year instead of six. This change is in line with the recent revamping of the Beaver Key elections approved by the Institute Committee.

The twelve sophomores nominated are: George N. Ziegler, Samuel K. Taylor, Caleb S. Taft, Theodore G. Loomis, Dean C. Picton, Langdon S. Flowers, Robert B. Meny, Garry C. Myers, Jr., Joseph L. Kaufman, James Woodburn, Jr., Richard R. Wareham and George S. DeVoe.

Magoun

(Continued from Page 1)

as indeed they do. Professor Magoun further stated that the knowledge gained during this period is of more importance than any college degree. Care should be taken in the kind of a background the bride and groom build for their marriage.

In preparing these talks Professor Magoun has had the advice and assistance of Dr. James Janney, a famous Boston gynecologist, Dr. Merrill Moore, a prominent

Boston psychiatrist, Dr. Leonard S. Cottrell, Jr. of the Sociology department at Cornell, and Father H. V. Stockman of Holy Cross.

Recently a graduate of the Institute sent Professor Magoun a letter which expressed his thanks for the help which these lectures have given him. An excerpt from this letter follows: "I was one of those fortunate enough to listen to the lectures on courtship and marriage. In my own small but grateful way I'd like to give thanks for every word that was said. At the time I heard the lectures, marriage seemed far away.
